

## CLOCK

Un piccolo proiettore circolare dal design essenziale e di carattere, CLOCK è uno spotlight versatile e preciso. Spessore contenuto ed elegante orientabilità, con le sue due dimensioni offre grande qualità illuminotecnica, grazie ai performanti LED ed alle ottiche accuratamente studiate per permettere svariate modalità di impiego del flusso luminoso.

Gli accessori a corredo incrementano le tipologie di installazione ed il comfort visivo di CLOCK con stile - soluzioni puntuali per un'illuminazione d'accento scenografico e vibrante.

A small circular projector with an essential design and character, CLOCK is a versatile and precise spotlight. Low thickness and elegant adjustability, with its two dimensions it offers great lighting quality, thanks to the high-performance LEDs and specific designed optics to allow various ways of using the luminous flux.

The accessories supplied increase the types of installation and the visual comfort of CLOCK with style - punctual solutions for scenographic and vibrant accent lighting.

## Spessore ridotto

Lo spessore di soli 36 mm per i due diametri consente un inserimento non invasivo negli ambienti esterni.

## Reduced thickness

Its 36 mm thickness for both diameters allows to fix CLOCK discreetly in outdoor settings.

Il corpo in alluminio ruota intorno al perno di fissaggio per facilitare l'orientamento sul piano verticale. Il blocco è garantito da una vite 8MA. Due asole sulla base consentono l'orientamento orizzontale  $\pm 40^\circ$ .

The aluminium body rotates around the locking pin on the vertical surface to easily adjust its direction. An 8MA screw locks it in place. Two eyelets on the base allow for a  $\pm 40^\circ$  horizontal adjustment.

## Cablaggio stagno

CLOCK è ermeticamente chiuso con resina bicomponente e fornito con 1,5 m di cavo interrabile H05RN-F. Il cavo può passare nell'apposito foro della basetta del braccio.

- Pressacavo in ottone
- Resinatura Acquastop
- Cavo antistrappo

## Watertight wiring

CLOCK is hermetically sealed with a two-component resin and provided with an 1,5 m H05RN-F cable. The cable can pass through a special hole in the base of the arm.

- Brass cable gland
- Aquastop Resin Finish
- Anti-tear cable

## Vetro sigillato

Il vetro frontale temprato trasparente ultrawhite è sigillato alla cornice di chiusura per consentire la massima tenuta.

## Sealed glass

The front tempered ultrawhite clear glass is sealed to the frame for a perfect watertight.

## Steli

Steli predisposti per passaggio cavi grazie ad apposite asole.

## Stems

Stems suitable for cable entry thanks to dedicated slots.
