

QUANTUM

La serie di apparecchi da incasso a tenuta stagna QUANTUM è stata progettata fin dall'origine appositamente per l'applicazione LED. La concezione innovativa del sistema ha consentito di inserire in un corpo di dimensioni ridotte il generoso dissipatore, con trasformatore che consente di collegare QUANTUM alla normale linea 230V. Il sistema modulare di QUANTUM permette di rivestire il corpo lampada con maschere di diverso disegno e materiali. L'aggancio a scatto assicurato da due viti esagonali facilita l'installazione. Le lampade si installano sia nelle comuni scatole per interni da 3, 4 o 6 moduli che nelle speciali controcasse dedicate Goccia Illuminazione per l'uso esterno. La serie si completa con i pali QUANTUM POST per illuminare percorsi pedonali, piste ciclabili, parchi e giardini.

The QUANTUM series of waterproof recessed luminaires was designed from the outset specifically for LED application. The innovative concept of the system has made it possible to insert the generous heat sink in a small body, with a transformer that allows QUANTUM to be connected to the normal 230V line. The QUANTUM modular system allows the lamp body to be covered with masks of different designs and materials. The snap coupling secured by two hex screws facilitates installation. The lamps are installed for outdoor use in the Goccia Illuminazione dedicated backboxes. The series is completed with QUANTUM POST to illuminate pedestrian paths, cycle paths, parks and gardens.

QUANTUM

Massima componibilità

La Serie QUANTUM, totalmente componibile, è composta da:

- **controcasse** 503 / 504 / 506 di mercato o specifiche Goccia Illuminazione
- **corpi in policarbonato** a 3 / 4 / 6 moduli standard
- **maschere intercambiabili** in alluminio, policarbonato, INOX AISI 316L o vetro opale

Maximum modularity

The lighting fittings of the range are supplied in 3 separate parts:

- recessing Goccia Illuminazione **backboxes**, horizontal and vertical
- **polycarbonate lamp bodies** in different wattages and dimensions
- **covering masks** in polycarbonate, aluminium, AISI 316L stainless steel or glass

Incastro snapping della maschera sul corpo con ritenzione di sicurezza mediante viti a brugola inox in tinta.

Mask snap connection on body with safety retention with stainless steel matching Allen key screws.

Dimensioni ridotte

Goccia Illuminazione ha inserito in un **corpo di dimensioni ridotte** un LED ad alta efficienza e un trasformatore con un potente dissipatore.

Small dimensions

Goccia Illuminazione has inserted a high efficiency LED and a transformer with a powerful heat sink inside a **compact body**.

La giusta luce

Le particolari forme degli apparecchi permettono di **distribuire la luce verso il basso o frontalmente** offrendo un'ampia gamma illuminotecnica.

The right light

The particular shapes of the fittings allow you to **distribute light downwards or frontally**, offering a wide lighting range.
